

Indian News.

Our correspondent at Apache Pass sends us the following communication dated July 3d:

Mr. Editor: About 20 of our warriors came in from Sonora yesterday, and brought 35 head of cattle and some horses and mules. They took the cattle from Oposura, or vicinity. They are going and coming in small parties all the time.

Ca-Chees has started to the fort with all his band that are not stealing in Sonora, or at least he told me he was going. He is afraid that Capt. Ewell will charge him with stealing the stock from the Patagonia mine, which he knew of before I did. Ca-chees is a very deceptive Indian. At first appearance a man would think he was inclined to be peaceable to Americans, but he is far from it. For eight months I have watched him, and have come to the conclusion that he is the biggest liar in the Territory, and would kill an American for any trifle, provided he thought it wouldn't be found out. He fears the soldiers, and if he was not guilty he would not have cause. The chief Es-co nella, I believe is the only one that is actually friendly to Americans; his band has not lately been out on any plundering expeditions.

The last time the Coyotero chief, Francisco, was here, he asked me if the Americans were going to buy or take Sonora? I told him I thought they would. He then wanted to know if the Americans would let the Indians steal from Sonora, and I replied that I rather thought not. He then said that as long as he lived and had a warrior to follow him, he would fight Sonora, and he did not care if the Americans did try to stop it, he would fight till he was killed. I think he would make his word true.

THE PLATTE GOLD MINES.—Wonderful accounts of the richness of the South Platte gold region begin to fill the papers again, and tangible evidence has been received at St. Louis in the shape of not less than \$10,000 worth of fine scale and shot gold. It seems that the snow having melted, explorations were carried into the mountains and ravines, and the result has been the discovery of very rich diggings. Reliable news now comes in from the gold region, special agents having been dispatched to the ground by the leading newspapers. We take the following from the St. Louis Democrat:

Mr. Swinborn, agent for Messrs. Smoot, Russell & Co., arrived at Leavenworth this morning with \$600 in gold dust. Mr. Swinborn passed immediately to New York to test the quality and value of this gold. He says that a much larger amount of dust might have been brought in, but the miners demand twenty dollars per ounce, which is regarded as exorbitant by purchasers.

The Leavenworth Times, extra, furnishes the following accounts from the mines:

Claims that were considered worthless four weeks ago are now commanding from \$5,000 to \$10,000.

Gregory sold his claim for \$21,000. Several other claims of the same lead changed hands at from \$6,000 to \$7,000. The snow has disappeared from the mountains, and prospecting was being vigorously conducted.

New rich leads are constantly being discovered. At the Gregory diggings miners were making twenty-five hundred dollars each per day. Arrivals from the States continue large, and all push immediately for the mountains.

The health of the district is excellent, and the miners are jubilant.

GILA CITY, June 25th, 1859.

EDITOR ARIZONIAN: Please announce in your paper the death of RICHARD CAMPBELL, Esq., who has been residing here about four months. His family are residing at Las Cruces or Santa Fe, New Mexico. He has a son, a small boy, who is desirous that his relations may come or send for him immediately. I would be glad that Dr. James Campbell, a brother of the deceased, who resides at Magdalena, Sonora, could be apprised of the above facts, as he is wealthy, and would certainly adopt immediate steps for having the boy's wants attended to.

Yours truly, THOS. J. MASTIN.

BELLY'S WORK ON THE NICARAGUA CANAL.

The reports recently received respecting the progress of the Nicaragua canal are not of a promising character. The form of laying the foundation stone has been gone through with, but, notwithstanding the preparations which were previously made for celebrating the occasion in a magnificent style, it turned out to be a most insignificant affair. Neither the President of Costa Rica nor Nicaragua were present, although commissioners were sent expressly to invite them; indeed, no one was there, except a few employees of M. Belly, so far as we can ascertain, certainly no one of any distinction. Considerable sickness has broken out among the engineer corps, and one of the party had died of yellow fever.

The survey of the river and lake was being proceeded with, but in a very superficial and hasty manner, with the object, probably, of getting a report into the market as soon as possible. The general opinion appears to be, even of the most sanguine believers in the canal, that the scheme is very likely to meet with a premature death; and, although we never had the slightest faith in the undertaking, our opinion of its being a humbug is daily strengthened by the reports which reach us. —[Panama Star.]

The official majority in Massachusetts for the constitutional amendment requiring 2 years residence after naturalization before a person can vote, is five thousand six hundred and twenty-four, out of the total vote of thirty-five thousand eight hundred and eighty-two.

In the Derby (English) races, the stakes were won by Sir Joseph Hawley's horse Musjid. The value of the stakes were nearly £7,000, and it is rumored that Sir Hawley wins near £100,000 more on bets.

Gen. Twigg is improving in health.
